

# Documentation:Tromas WordPress Theme

Install **Tromas** WordPress Theme within a few minutes.

**Tromas** is a Multipurpose Business WordPress Theme It's fully responsive with bootstrap framework, easy to customization, modern and creative template. Its perfect for Business, Corporate, Agency, Studio, Startup or any other Business websites. **Tromas** comes with Quality Design & Standard Coding via HTML5 and CSS3.Tromas includes Multipage & Onepage Layout. This WordPress Theme has commented code for each section, included in the main file, so that you can easily adapt and suit for your needs.

## Tromas documentation: How to start?

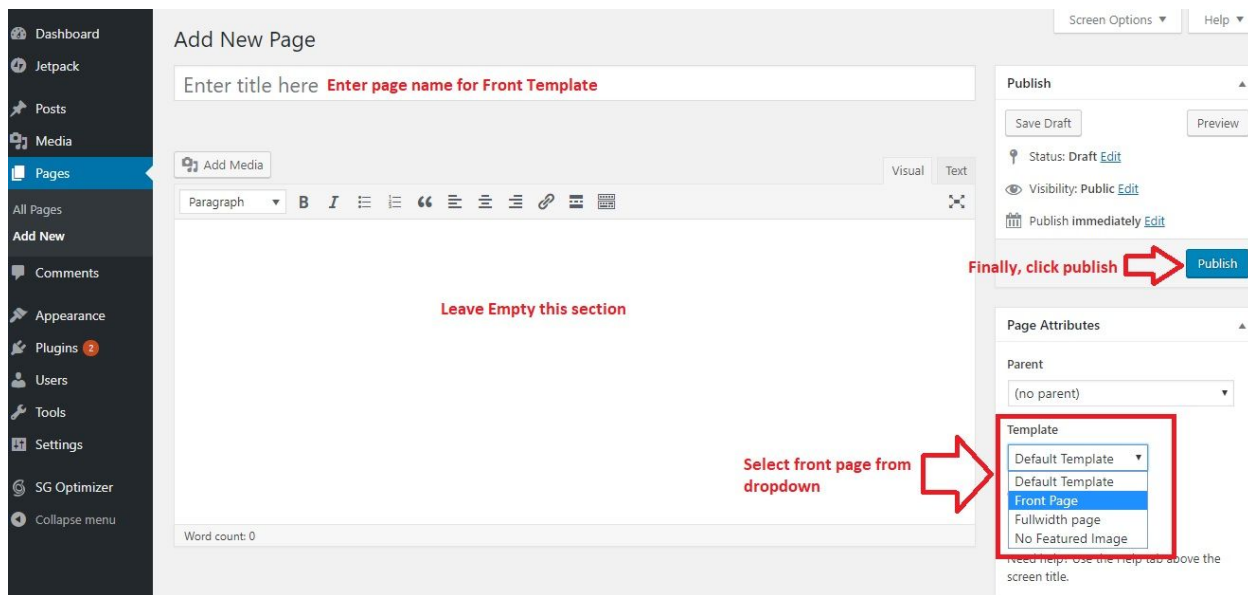

This documentation will show you step by step how to complete the basic configuration of **Tromas**.It is important that you follow these steps carefully because some steps build up on each other and that will help you a great deal to set up your website properly:

1. [How to set up a static front page in WordPress?](#)
2. [How to upload, install and activate Tromas?](#)
3. [What is page and how to create it?](#)
4. [What is category and how to create it?](#)
5. [How to create menus?](#)
6. [How & where to place widgets on your website?](#)
7. [How to create posts?](#)
8. [How to add logo, header image and site title/tagline?](#)
9. [How to adjust options & layout?](#)
10. [How to add google map in contact section?](#)

### 1 – How to set up a static front page in WordPress?

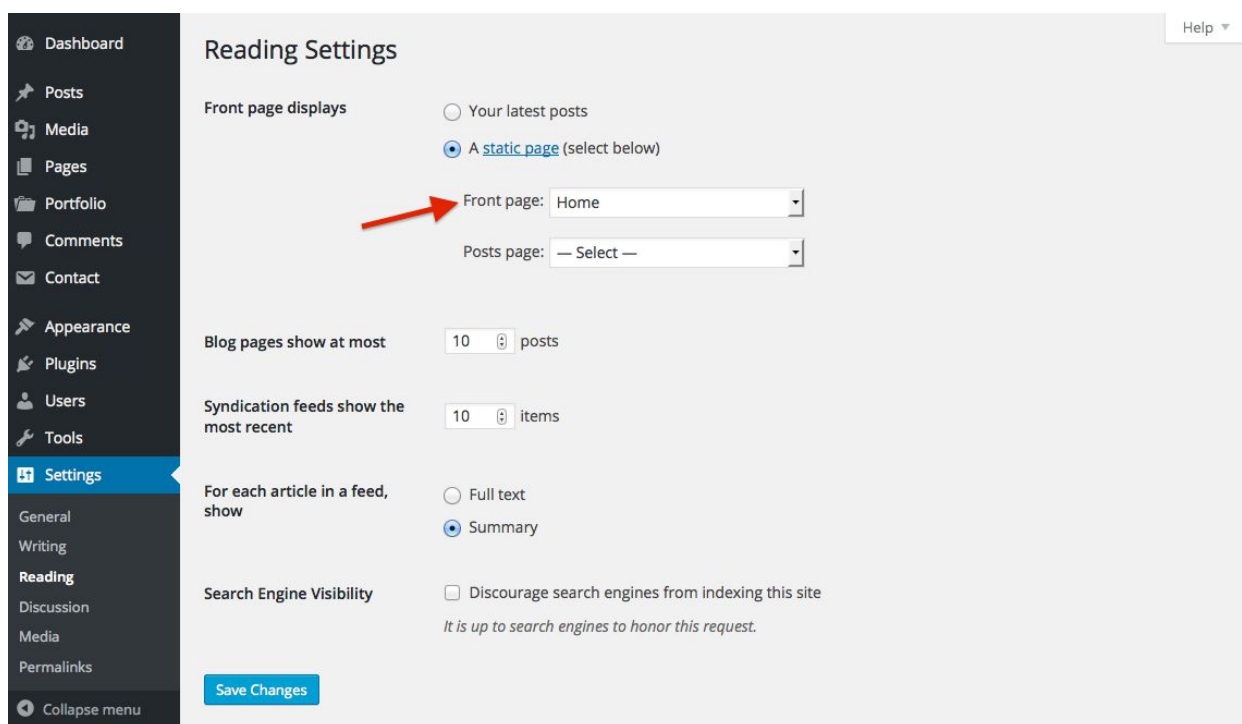

In order to create a **tromas** like front page like shown in the theme demos for **Tromas**,

- First to create new page named Home(or else) .
- Select Homepage template for your just newly created page under Page Attributes on the right side.
- Finally, publish this page.

- Second, go to **Settings => Reading** in your WordPress dashboard.
- Select A static page and select your just created new page Home as *Front page*.

**Note:-** Don't forget to save your changes

## 2 – How to upload, install and activate tromas?

From WordPress Dashboard

- Login to Wordpress admin panel
- Go to > **Appearance > Themes**
- Click in **add New > Upload tromas.zip file > Install Now**
- **Activate the theme**

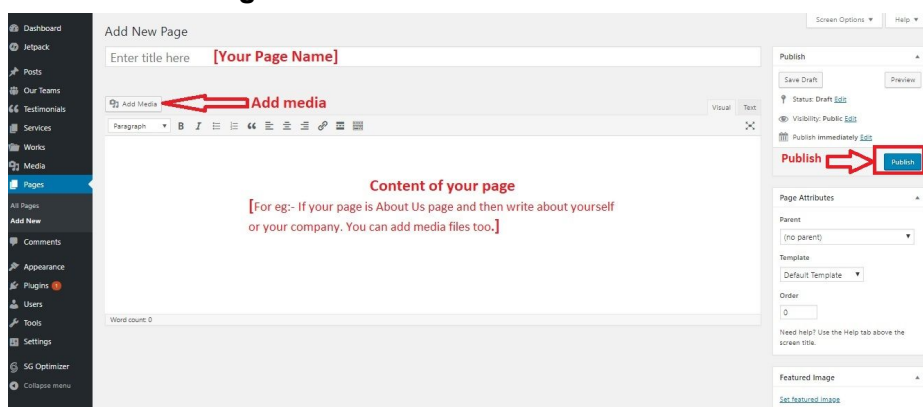

After installing the theme, now you can customize your website as per your preference.

## 3 –What is page and how to create it?

Pages are static and are not listed by date. Pages do not use tags or categories. An about page is the classic example. Pages can be displayed in the sidebar using the Pages widget, and some themes display pages in the navigation at the top of the site.

**-To create page**

- Go to dashboard
- Click in **Pages > Add New > Follow instructions as below**

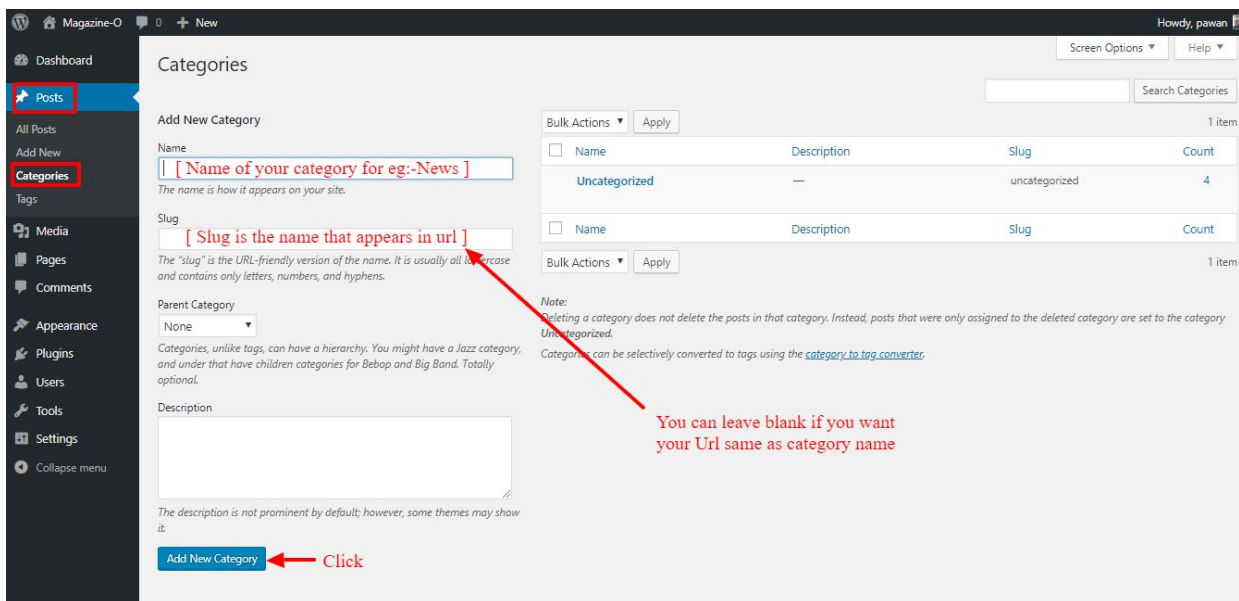

- After adding all content, you can publish your page and create necessary pages by same method.

## 4 – What is category and how to create it?

Categories provide a helpful way to group related posts together, and to quickly tell readers what a post is about. Categories also make it easier for people to find your content. Categories are similar to, but broader than, tags.

How to create categories

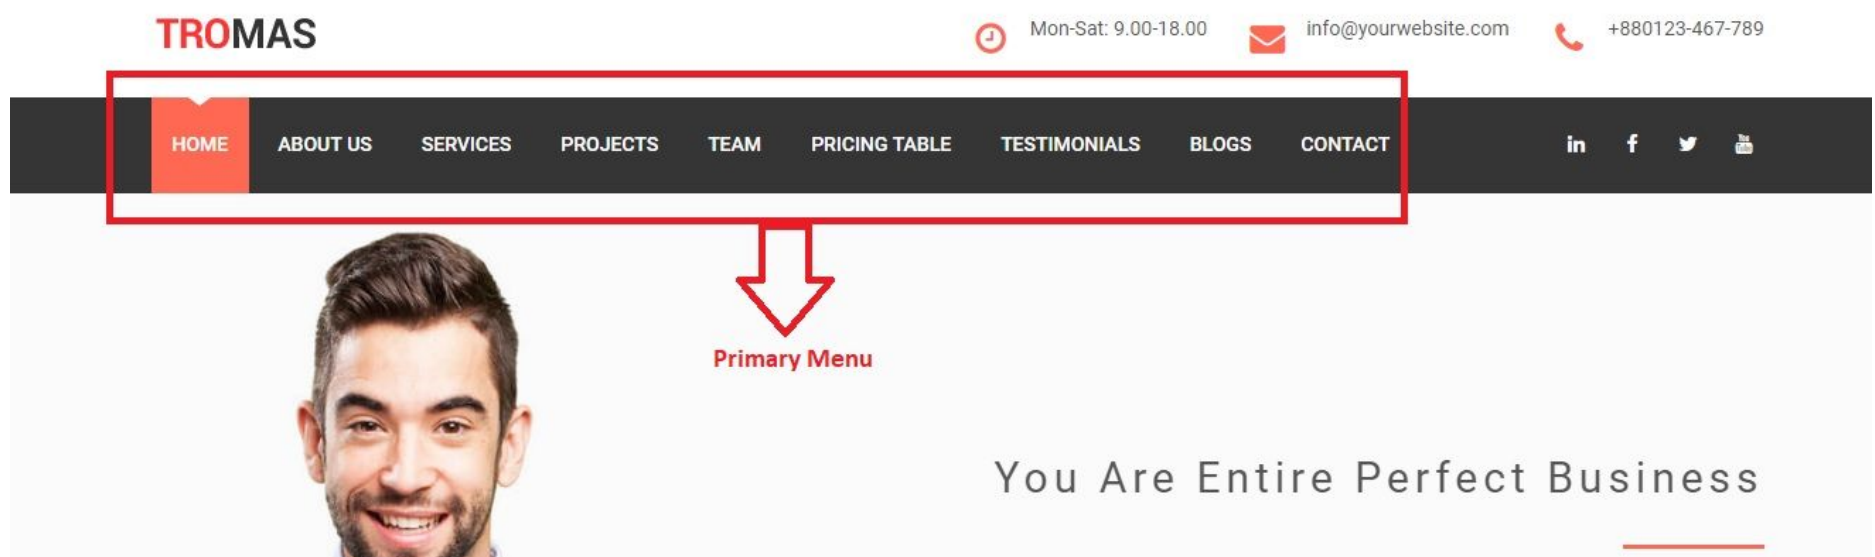

- Go to dashboard
- Click in **Posts > Categories**

- You can put your own slug too, most of the time it is left blank which means name of the category itself will be its slug.
- [ For eg. yoursite.com/category/category\_name]
- You can put description if you want.
- Now after adding category, your category will appear in right side of the post page.
- You can add more categories in same manner.

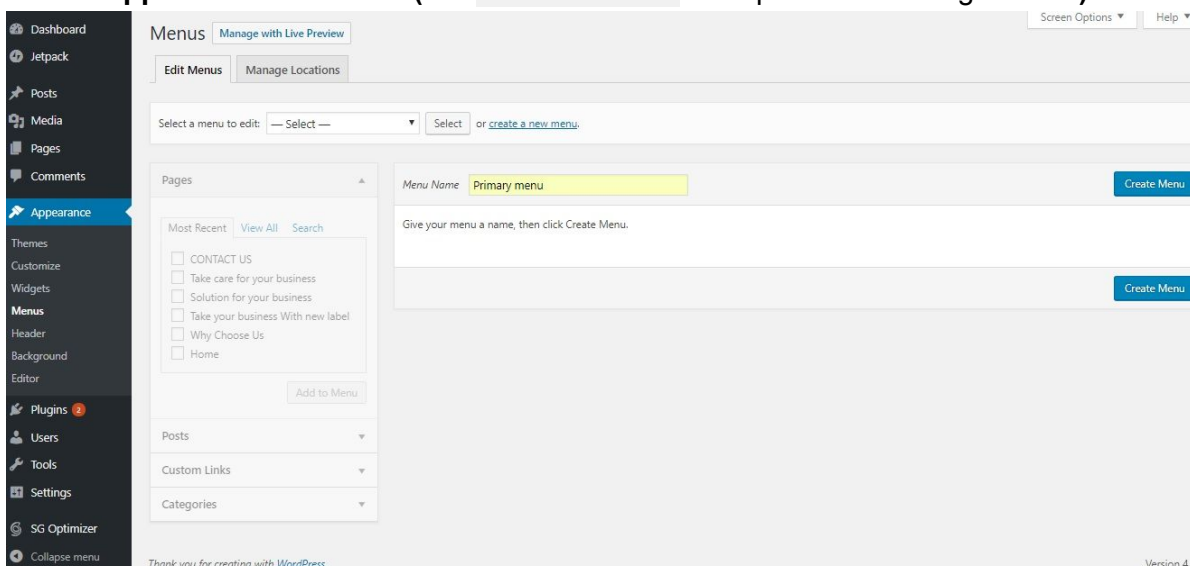

## 5 – How to create menus?

This theme comes with only one menu locations. **Primary** menu.

You can create menus in **two ways**.

- **Appearance=>Customize=>Menus=>Create New Menu**
- **Appearance => Menus**(We **RECOMMENDED** this Option for creating menus.)

- Create **New Menu** [You need to create only one menu]
- Give name of the menu[For eg. Primary Menu] > **Create Menu**

- Now add menus from dashboard left side. Required Custom Links to be menu.
  - Menu Custom Link
    1. For **About us**:- [#about-us](#)
    2. For **Services**:- [#services](#)
    3. For **Projects**:- [#projects](#)
    4. For **Team**:- [#team](#)
    5. For **Pricing Table**:-[#pricing-table](#)
    6. For **Testimonials**:- [#testimonials](#)
    7. For **Blogs**:- [#blog-main](#)
    8. For **contact us**:- [#contact-us](#)

### Menu Settings

Auto add pages:  Automatically add new top-level pages to this menu  
Display location:  Primary

Delete Menu | Save Menu

Example How to add menu in Menu structure.

Thank you for creating with WordPress. | Version 4.9.5

- Click in Add to Menu button.
- Select your menu is Primary.

## 6 - How & where to place widgets on your website?

In this important step, we will show you where and how to place widgets. You can place widgets either through two ways:-

- Appearance => Widgets
- Appearance => Customize => Widgets

**Note:-** Widgets can be placed simply via drag and drop, so just pull your favored widget to the widget area you like.

**Our registered widgets:-**

Sidebar	▼	Footer Widget 2	▼
Header Widget	▼	Footer Widget 3	▼
Pricing Table Widget	▼	Footer Widget 4	▼
Footer Widget 1	▼	Google map iframe	▼

Here you can see the **Available widgets** areas of **Tromas** WordPress Theme.

### Available Widgets

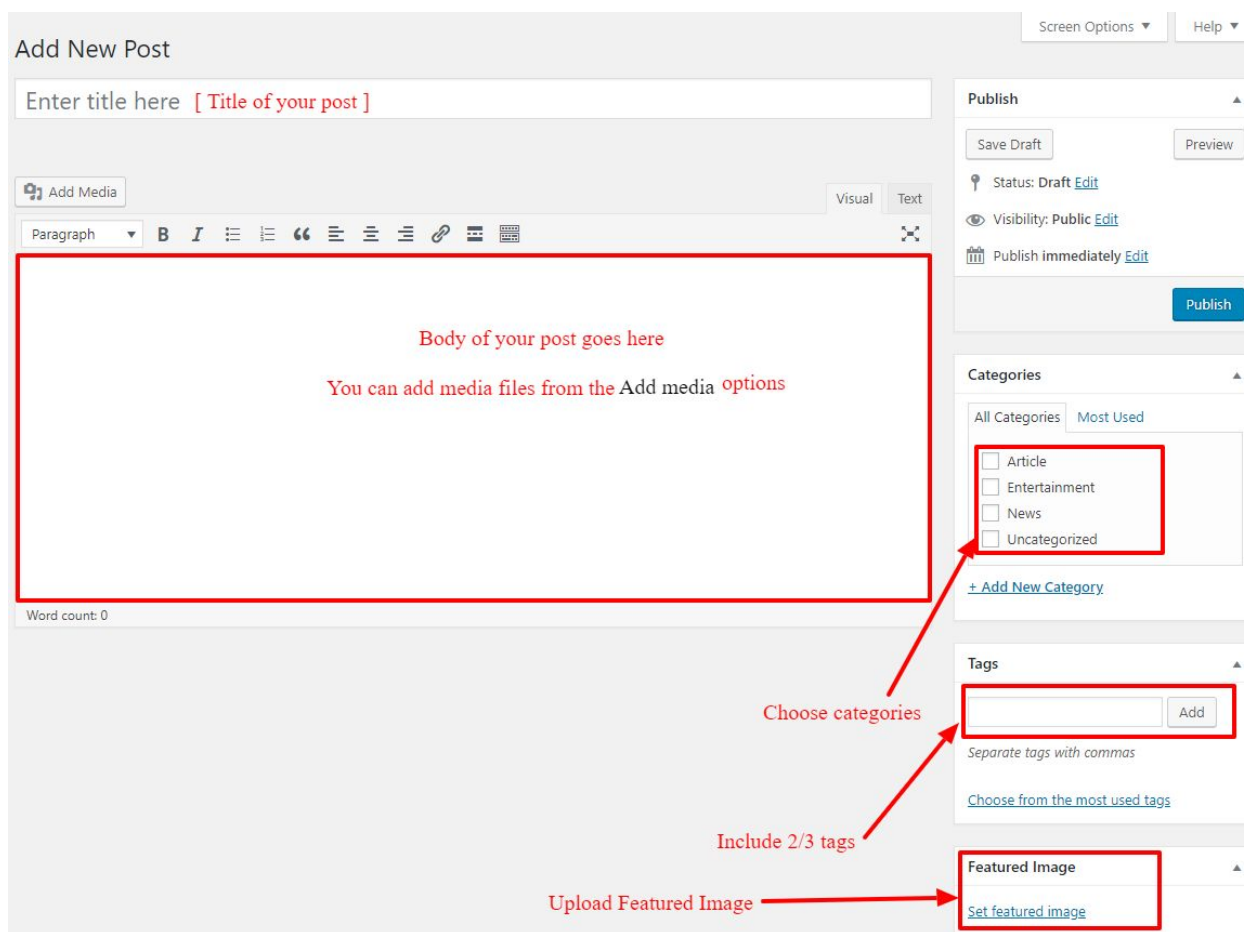

To activate a widget drag it to a sidebar or click on it. To deactivate a widget and delete its settings, drag it back.

## 7 - How to create posts?

Now after all set, you can start writing your post. Follow these steps

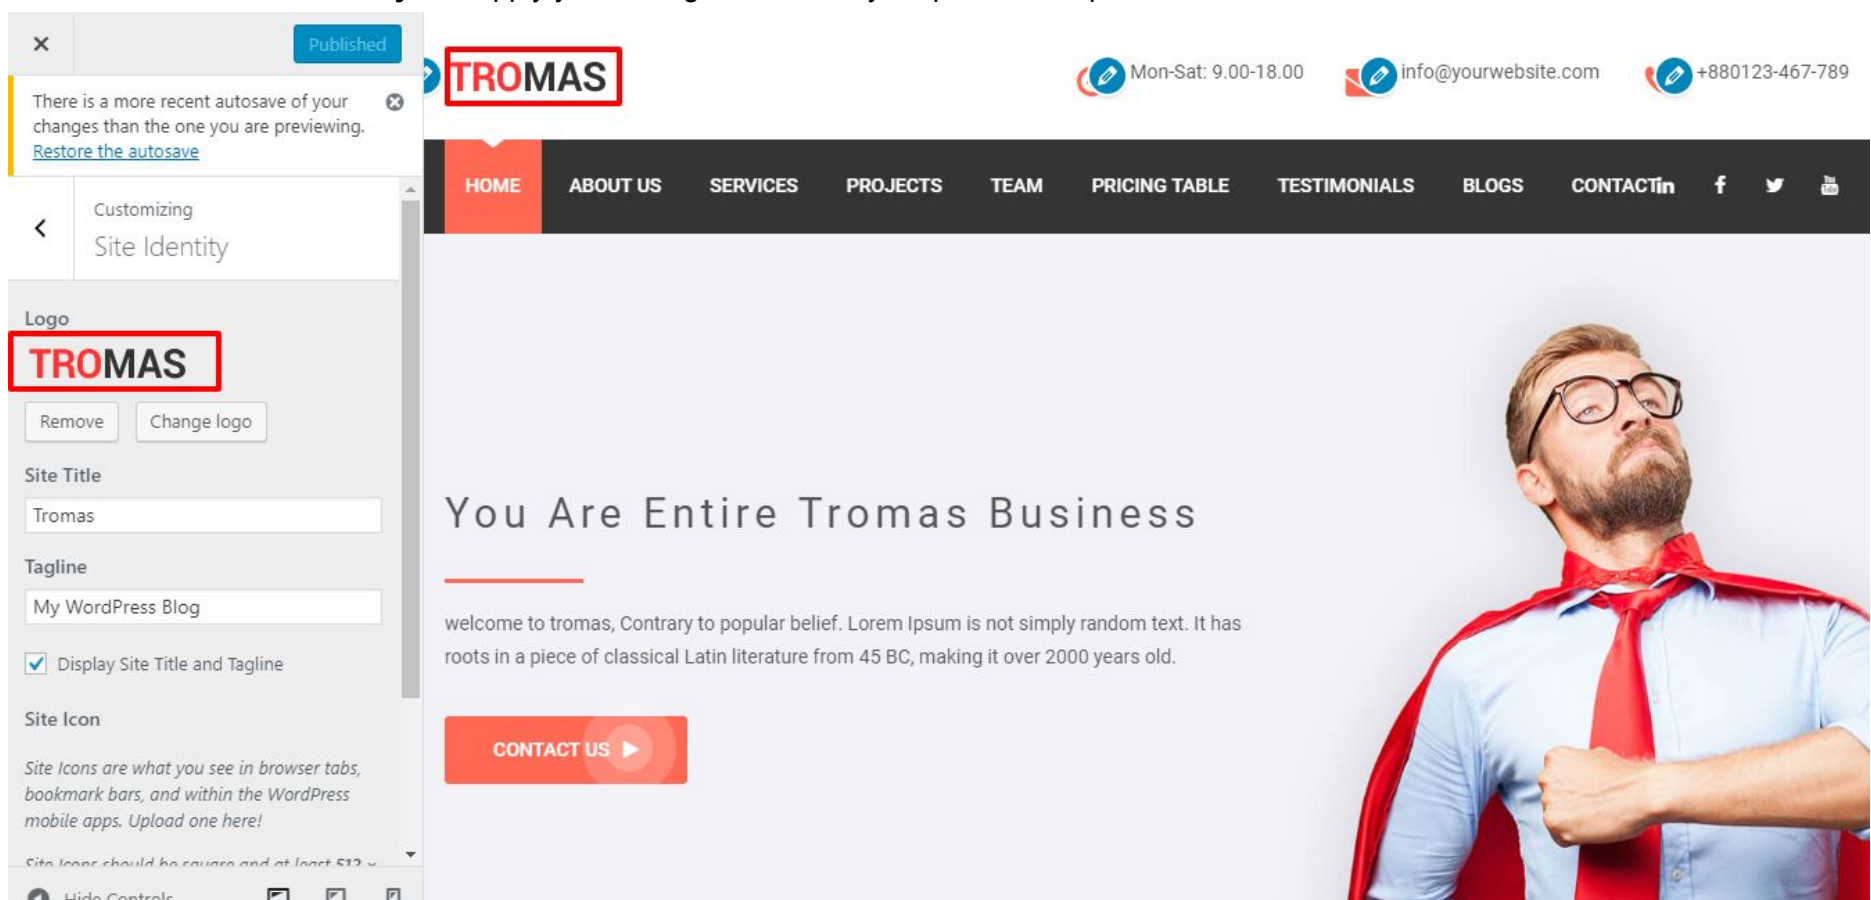

- Go to dashboard > **Posts > Add New**

- Finally, click in publish Button. You can preview your post before actually publish it just make sure everything is ok. If you have not completed writing your post then you can save it as draft.

## 8- How to add logo, header image and site title/tagline?

With **Tromas**, you may customize your header in many different ways. To upload a full-width header image, go to **Appearance => Customize => Header Image** in your WordPress dashboard. To upload a logo and display/hide the site title and tagline, you can navigate to **Appearance => Customize => Site Identity** and apply your changes based on your personal requirements.

## 9- How to adjust options & layout?

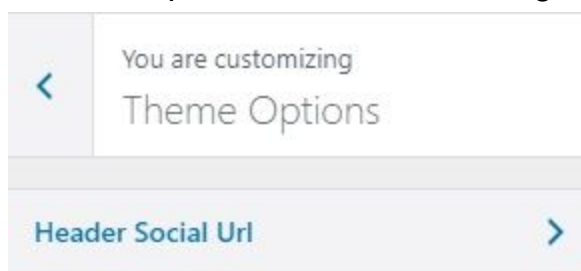

After you have carefully followed the previous steps, you have successfully completed the basic configuration of the theme. You can now further customize and manage the appearance of your website via the extensive options panel of **Tromas**.

Please navigate to **Appearance => Customize** in your WordPress Dashboard to see the theme options panel within the WordPress customizer.
